Letter of Appreciation

To whomsoever it may be concern,

This is to certify that Dr. Abubaker Syed Mohamed, Assistant Professor of Chemistry, Sadakathullah Appa College, Tirunelveli, India has worked as a visiting research fellow in Microbial Genomics Laboratory, Department of Biotechnology, College of Life and Applied Sciences, Yeungnam University from 10.11.2018 to 03.12.2018. During his visit, he carried out research work on antifungal activities and *in-silico* analysis of chalcone derivatives as potential fungal inhibitors.

I wish him all the best for his future endeavors.

Best Regards,

Junhyun Jeon , PhD

Journal Of Sound and Vibration – Elsevier Journal

Review comments on the manuscript (No.1673) entitled “ Response of Duffing’s oscillator to Base excitation and Significance of First order Term“ by K.Divya and K. Renji.

Ref.: Manuscript No.: 1673

The authors have studied the response of Duffing’s oscillator subjected to base excitation and significance of the first order approximation of the amplitude. The authors derived an expression for the amplitude of the amplitude of response for base excitation from relative displacement making constant assumption on the phase of the response. From the first principles using Linsted’s method, authors derived an expression to estimate the amplitude in the fundamental frequency of oscillation. Authors are also presented the characteristics showing the variation of the amplitude with the excitation frequency for various nonlinear parameters of the oscillator.

The results presented in the paper are interesting and the work is well written and understandable. I would recommend the publication after the following corrections will be made.

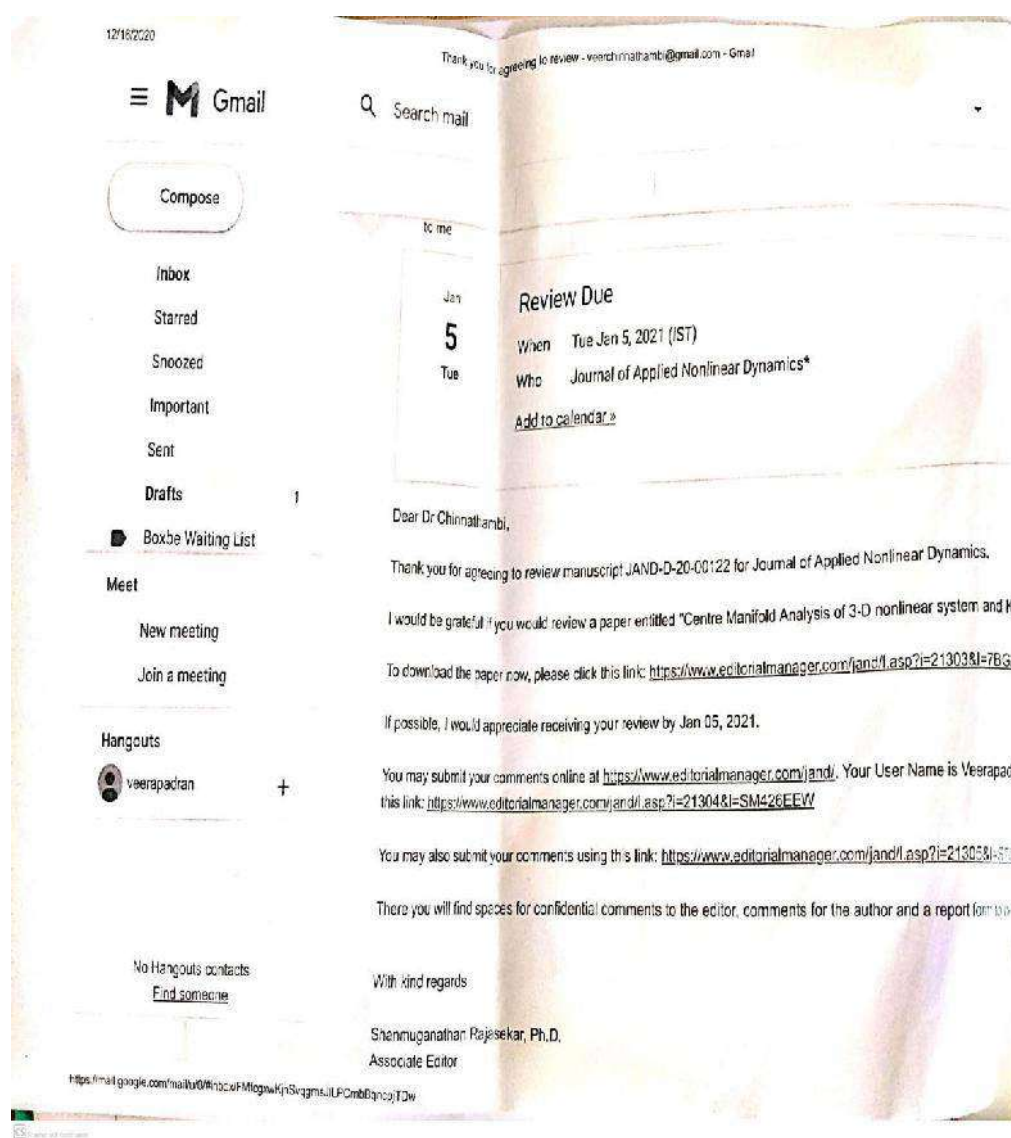

Corrections / suggestions to incorporate:

1. In the first paragraph of introduction (Page 1, Line no 6) some necessary references should be included to support your statements.
2. I encourage checking for typos. In particular,
 - (i) in page no 6, line no 4, $\text{andsin}(\varepsilon\Phi_1) = \varepsilon\Phi_1$, should be changed by $\text{andsin}(\varepsilon\Phi_1) = \varepsilon\Phi_1$
 - (ii) in page 7, line no 3, cost should be changed by cost should
 - (iii) in page 8, line 9, close bracket missing, Eq.(24)
 - (iv) in page 12, line 15, $\text{is } x_0$ should be changed by $\text{is } x_0$ and
 - (v) in page 26, line 2, considerablywith should be changed by considerably with
3. In page no 8, author mentioning the various types of spring types such as hardening and softening. Please state the definition of both spring types, which should be included in the revision.
4. What are the innovations / novelty of the paper when the Duffing system subjected to base excitation instead of harmonic force excitation?
5. The authors should make an effort to give more explanation of the figs. 2-6 and 11-18.
6. Please suggest few open avenues of this problem

Sub: INSA Visiting Scientist Programme 2021 for FY 2021-22.

Dear Dr. Khan,

This is with reference to your application for INSA Visiting Scientist Programme 2021 for FY 2021-22. I am happy to inform you that you have been selected for the award of INSA Visiting Scientist FY 2021-22 under which you can visit the Institute (Name of Visiting Institute as mentioned in your application) for a period of 3 months on following terms conditions:

1. During the fellowship period you will be paid consolidated amount of Rs. 30,000/- (maximum) per month to cover your expenses related to boarding, lodging, travel etc.
2. Candidate selected as Visiting Fellow must avail this Fellowship on or before 31 January, 2022. No Claim bills for payment will be accepted by the Academy after March 31, 2022.
3. In case of any Change in Parent Institute, it should be informed to INSA before submission of Claim Bill.
4. Grant will be made to Parent Institute on completion of the visit upon submission of Claim Bill (in duplicate) duly forwarded by Parent Institute along with UC/SOE as per enclosed proforma.
5. A short report (2-3 typed pages) should be sent to the Academy immediately after completion of the visit along with a certificate from the Host Institute.

Kindly communicate your acceptance.

With best wishes,

Yours sincerely,

M. Narayan

Dr. Pazhamalai Anbarasan
Professor

29th November 2021

To Whom It May Concern

This is to certify that **Dr. R. Imran Khan** worked as a visiting scientist for three months from September to November 2021, under the scheme of Indian National Science Academy (INSA) Visiting Scientist Programme -2021 for FY 2021-22, under the guidance of Prof. P. Anbarasan, Professor, Department of Chemistry, Indian Institute of Technology (IIT), Madras.

Dr. R. Imran Khan is a very sincere, hard-working and intelligent scholar with strong motivation towards research. He is very sound in theory and his experimental skills are good. I am much impressed with his grasp of the research, and the steady as well as thorough approaches to solve them. He is an affable, pleasant personality and always maintains good rapport with his colleagues in the lab. He will be a very valuable addition to the research and academic community. With his excellent background and intelligence, I am confident that he will contribute extensively to both research and teaching.

I wish him all success.

Yours Sincerely

Dr. P. ANBARASAN
Professor
Department of Chemistry
Indian Institute of Technology Madras
Chennai - 600 036, India
